ANNUAL REPORT

FY 2021-2022

Creating A Safe And Sustainable Society For All The Deserving People in
Tamil Nadu

Founder Note:

Nalam is a non-profit organization. This year, we work to empower rural women by creating assets in their names and empowering them in society. We have provided necessary educational equipment and materials for the school to the economically backward students and have created worthy students in the society. We provide relief and nutritious food to people affected by HIV. We identify women who have lost their life and livelihood due to the worst (usurious) illegal loans in the society and provide them security and self-employment to empower them in the society. Facilitating higher education and promoting vocational education for deserving poor children to generate sustainable employment and income. We create Women's Self Help Groups and create economic and empowerment for women. Farmer women were trained in the use of modern agricultural implements and modern agricultural implements were provided at subsidized rates.

The interventions during the 2021-2022 year by Nalam are given hereunder.

K. ARUMUGAM
FOUNDER,NALAM

Women Economic and Empowerment Activities

Support:

We know that women are not given full power as the property is usually in the name of men. If women are to be empowered, properties should be in women's names. Thus we created awareness in rural areas and succeeded in creating properties in the name of women and empowering them in the society. We are happy to have created around 100 deserving students in the society by providing necessary educational equipment and materials to the economically backward students. 65 persons infected with HIV were identified and given medical advice and relief and nutritious food to make them happy. We identify 15 women who have lost their lives and livelihoods due to the worst (usurious) illegal loans in the society and provide them with security and self-employment to empower them in the society. We are creating 150 Women Self Help Groups and creating economic and empowerment for women. 200 women farmers were trained in the use of modern agricultural implements and modern agricultural implements were provided at subsidized rates.

We are delighted with this year's service.

EDUCATIONAL SCHOOL PROJECT

We are happy to have created around 100 deserving students in the society by providing necessary educational equipment and materials to the economically backward students.

MODERN AGRICULTURAL TRAINING

Rural women farmers were trained in the use of modern agricultural implements and modern agricultural implements were provided at subsidized rates.
